Action was 'personal,' Blackburn says

Martin board votes not to renew superintendent's contract

by Lilly Adkins
ASSOCIATE EDITOR

INEZ — The first Martin County Board of Education meeting with two new members turned out to be a heated affair last Tuesday, Jan. 8, as the board voted not to renew superintendent Mark Blackburn's contract.

Blackburn said in an interview with The Big Sandy News after the meeting that the action was "all personal."

"Two of the three board members were only seated board members for eight days," Blackburn said. "It's a sad day that all the improvements and advancement in Martin County Schools wasn't taken into consideration. Come June 30, if the decision stands, I will fully thank everyone who has supported me. I have nothing but appreciation for the people who have shown their support."

The issue was brought up shortly after a power point presentation by Blackburn regarding a draft budget and was initially supposed to be a discussion.

Board members Gary Ball of District 4 and Roger Harless of District 3, who had assumed their positions eight days earlier, were welcomed at the meeting along with Donita Harless, Kathleen Price and Craig Preece, who was elected to serve as the board's chairman. Roger Harless was elected to serve as the vice chairman.

Price nominated Preece for the position as chairperson, which was seconded by Roger Harless, with all in favor.

EKCEP awarded grant to help workers find jobs

Eastern Kentucky workers will soon have more options to obtain training and certifications for higher-paying skilled trades like electrical, plumbing, HVAC and construction, thanks to a new grant awarded to the region's workforce development agency.

The Eastern Kentucky Concentrated Employment Program, Inc. (EKCEP) has received a $25,000 planning grant that will assist its Workforce Investment Board (WIB) in encouraging partnerships with local employers to create opportunities for skilled trades apprenticeships.

Awarded by the Kentucky Workforce Investment Board and the Kentucky Education and Workforce Development Cabinet, the "Quick Start" industry partnership grant will ultimately create programs to allow workers to become journeymen or certified master craftsmen in a variety of skilled trades.

EKCEP industry liaison Joyce Wilcox said the region has a critical need for new skilled career opportunities in light of ongoing coal layoffs due to an industry-wide downturn in production.

Bridge to be dedicated

PAINTSVILLE — Residents of the Concord community along Ky. 1145 in Johnson County now have direct access to Ky. 40, thanks to a $3.4 million bridge built by the Kentucky Transportation Cabinet that will officially open Friday.

"This is the first time the people who live at Concord have had a bridge connecting them to Ky. 40," said Doug Wright, Paintsville section engineer for Highway District 12. "This bridge not only improves access to U.S. 23 and U.S. 460, it means much faster response time for emergency personnel, firefighters, and law enforcement. The Concord Bridge is an extremely important infrastructure improvement for Johnson County."

The official opening of the bridge is set for 1 p.m. Friday, Jan. 18, at the bridge site. State Rep. Hubert Collins, state Sen. Ray S. Jones, representatives from the Kentucky Transportation Cabinet, and the primary contractor, Bush & Burchett of Allen, Floyd County, are expected to participate in the ceremony.

The event is open to the public.

"This is really an historic occasion," Wright said. "We encourage people to attend. This event is the kind of thing our grandchildren will talk about in their local history classes."

BOARD: Martin school chief's contract not renewed

Continued from Front

as vice chairperson, and the motion with seconded by Price, with all in favor.

The board accepted the resignation of John R. Triplett as its attorney.

"He filed a motion to withdraw as the board's attorney," Blackburn said. "His resignation is effective Dec. 31, 2012. I guess he has been the board's attorney for the last 30 years, so this is going to be a totally new process to hire an attorney."

Blackburn conducted a powerpoint presentation regarding a draft budget.

Blackburn said he sent copies to everyone, and that it isn't the actual budget, but that he would go over it briefly.

After the powerpoint presentation, Donita Harless said she knew that it wasn't on the agenda but that the deadline is March 1 and she would like to discuss Blackburn's contract.

"I don't know if the public knows, but the deadline is March 1, and we need to go ahead and get it on the table. There's been so many mix-ups, trying to push it through too early, and we don't want to wait until it's too late," Donnita Harless said. "I do feel like there may be one board member that don't want to, but it says here that with three votes we can."

Ball made a motion to add a discussion of the issue regarding Blackburn's contract onto the agenda, which was seconded by Roger Harless.

All of the board members were in agreement to put the item on the agenda for the purpose of discussion only.

"I think we just need to get this out, because this is everybody's future, this is our children's future," Donita Harless said.

Donita Harless said she didn't feel that Blackburn was following policy and brought up an issue that she said she had brought up four or five months earlier regarding water in the parking lot at Sheldon Clark High School. She said the problem hasn't been fixed and that students had to wade through water.

Blackburn said he wasn't there to be "bashed," and Harless said, "I've been bashed for the last two years."

Roger Harless said that he was there to represent the children and that no cuts would be made that would adversely affect them.

"I want somebody, a superintendent hands-on, who could go to the high school, and you know you don't treat so-in-so a certain way and then someone else a different way. You treat everybody the same," Harless said. "I don't care if it's a kid, a teacher, a classified, it don't matter. I'm standing up for the kids in Martin County, it's nothing personal," Harless said. "I can say this, I would have personal reasons, but that's not what it's about."

"Are you claiming that kids are treated different in the school system?" Blackburn asked Harless. "Is that what you're claiming? Provide the proof."

"Is that a threat?" Donnita Harless asked Blackburn. "Please don't do that."

Preece advised board members that there is no contract on the table.

"What do you guys want?" Preece asked.

Ball said he wanted to make a motion.

"Are you going to do that tonight?" Preece asked.

Ball said yes and told the board that they have three options, which included negotiating with Blackburn, choosing to renew his contract for one year, or doing neither and beginning the process to search for a new superintendent.

"I make a motion that we not extend the current superintendent's contract for a year and that we not negotiate a new four-year contract with Blackburn and start the ball rolling on the process of getting a new superintendent," he said.

The motion was seconded by Donita Harless with Roger Harless in favor, and Preece and Price against the motion.

EKCEP: Agency awarded grant to help area workers

Continued from Front

Since January 2012, these layoffs have left more than 2,000 miners and coal employees in EKCEP's 23-county service region out of work and searching for new employment that can utilize their technical expertise.

"Even as the coal industry continues to contract, the Bureau of Labor Statistics forecasts expansion and growth in the skilled trades industry by as much as 28 percent over the next three years," Wilcox said. "This is a clear indicator of the opportunity for much-needed job growth in our region, and we have a workforce that's more than ready for that opportunity."

As part of the grant, EKCEP will establish a skilled trades industry partnership that will guide the formation of the Regional Skilled Trades Apprenticeship Council and development of a registered skilled trades apprenticeship program.

The council would consist of local employers and partners in workforce, education and labor. This partnership will be responsible for developing a training model that will meet the skill requirements needed in the skilled trades sector.

The resulting apprenticeship program would allow Eastern Kentuckians to attend classes and work toward becoming a journeyman or certified master craftsman in their skilled trade of choice.

"This is an exciting opportunity, and I look forward to working with employers in the skilled trades industry," Wilcox said.

The Northern Kentucky Workforce Investment Board (NKWIB) also received a $25,000 "Quick Start" planning grant to promote its advanced manufacturing sector.

These awards represent the third round of KWIB planning grant opportunities for industry partnerships.

The long-term goal of industry partnerships is to create an infrastructure that will provide employer-led training and education that enhances the skills of incumbent workers and develop career pathways for the emerging workforce.

MILLS: Indicted former deputy clerk arrested

over the plate. The report also said that the passenger wasn't wearing a seatbelt and Mills couldn't produce a license, so she gave a Social Security number that came back to another subject.

Upon showing the license picture to the Social Security number that she provided Hall, she advised it was her roommate, Hall said in the report. Upon running Mills' correct Social Security number, her license was suspended, the report said.

Mills failed the field sobriety test, the report said, but consented to a blood test and denied contact with her attorney.

Mills and her sister, Tamberlyn Hairston, 41, also a former deputy clerk, were indicted in December 2012 on charges of abuse of public trust. They turned themselves in at the Big Sandy Regional Detention Center in Johnson County after the indictments were released and were later released on their own recognizance.

Tonya Mills' indictment alleges that on or before Jan. 9 through July 14, she obtained and dealt with public money or property subject to a known legal obligation to make a specified payment or disposition as her own, by intentionally failing to make the required payment or disposition of the property when she retained for her use funds of the clerk's office in an amount over $10,000.

Both Mills and Hairston were fired from their job by their mother last August after funds were reportedly found missing from the office.

The indictments were issued soon after State Auditor Adam Edelen released the findings of an audit of the clerk's 2011 financial statement and found a number of problems, not only with the 2011 financial statement but also in a review of the 2012 accounts, where more than $16,000 in undeposited cash receipts were discovered.

The audit was turned over to Kentucky State Police.

Following her arrest last Thursday, Mills was incarcerated in the Big Sandy Regional Detention Center in lieu of a $10,000 cash-only bond.

She is also a previously convicted felon, according to the indictment.

• Jonathan T. Kelley, 22, and Kathryn R. Holbrook, 31, both of Louisa, charged with manufacturing methamphetamine, first offense/complicity.

According to the indictment, on or before Dec. 4, 2012, Kelley and Holbrook allegedly knowingly and unlawfully manufactured methamphetamine or with the intent to manufacture methamphetamine and were in possession of two or more chemicals or two or more items of equipment for the manufacture of methamphetamine.

• Brittany N. Daniel, 24, of Louisa, charged with first-, second- and third-degree possession of a controlled substance, two counts of wanton endangerment and public intoxication.

According to the indictment, on or before Sept. 13, 2012, Daniel was allegedly in possession of a schedule II controlled substance, Oxycodone; a schedule III controlled substance, Hydrocodone; a schedule IV controlled substance, clonazepam.

Man charged with meth offenses

by Lilly Adkins
ASSOCIATE EDITOR

PAINTSVILLE — A Johnson County man was arrested Monday, Jan. 7, in connection with the manufacturing of methamphetamine after his vehicle broke down and authorities were called about a suspicious vehicle sitting at the end of Spurlock Drive in the Tutor Key area.

Joshua Doderer, 31, of Paintsville, is charged with manufacturing of methamphetamines, first-degree possession of a controlled substance and possession of meth precursors.

According to a press release issued by the Johnson County Sheriff's Office, Doderer was going door to door in the Tutor Key area trying to get someone to help jump start his vehicle. When deputy Terry Tussey arrived, Doderer was standing outside of his vehicle, the release said.

The release said that Doderer "appeared to be under the influence of drugs."

"Upon further investigation, it was revealed that Doderer had carried some items to a small stream near the vehicle," the release said. "Tussey determined that those items were used in the manufacturing of methamphetamines."

The release also said that Tussey continued to search the area, and other items also used in the manufacturing of methamphetamine were discovered.

"A search warrant was issued for the residence of Joshua Doderer at Elite Apartments in Paintsville," the release said. "The search yielded that methamphetamines had been manufactured in Doderer's residence and other illegal drugs were also located in the residence."

J. Doderer

Doderer was lodged in the Big Sandy Regional Detention Center.

"At this time, additional charges are pending," the release said.

The Johnson County Sheriff's Office was assisted by the Department of Probation and Parole, Kentucky State Police and the KSP DESI Unit.

Recent crash results in lawsuit

by Lilly Adkins
ASSOCIATE EDITOR

LOUISA — A lawsuit was filed Tuesday in Lawrence Circuit Court in connection to a collision between a coal truck and another vehicle earlier this month on U.S. 23 in Lawrence County.

The suit was filed against the coal truck driver, Virgil Plummer, and Coal Transport Inc. on behalf of a father and his daughter who were involved in a collision on Jan. 4.

At the time of the accident, Louisa police officer, Ed Cordle said Mary Ann Stratton was a passenger in a Chevrolet SUV driven by her father, Willie D. Hylton, and that she was ejected from the vehicle after a coal truck ran the red light at the intersection near Wendy's and struck the SUV, which was turning toward Louisa from the southbound lane.

Hylton was transported by NetCare Ambulance Service to Three Rivers Medical Center for treatment, but Stratton was flown from the scene to St. Mary's Hospital for treatment to her injuries, officials said.

Hylton and Stratton, both of Blaine, allege in their complaint filed by Inez attorney Brian Cumbo that Hylton was operating his vehicle in a negligent-free manner, consistent with the traffic light on U.S. 23 in Lawrence County, and that Stratton was a negligent-free passenger.

The complaint alleges that Plummer, of Magoffin County, "operated his loaded coal truck in a negligent, reckless and careless manner, failed to maintain the proper speed and control necessary for the circumstances, ran a red light and collided with the vehicle being operated by Hylton."

"Plummer was operating his vehicle in the course and scope of his employment with Coal Transport Inc. rendering them vicariously liable for the negligence of their employee," the complaint says. "Further investigation may reveal that Coal Transport Inc., is liable for negligent hiring, retention, failure to properly supervise and control their employee and or properly maintain the subject vehicle and such claims are hereby asserted."

Hylton and Stratton have sustained "catastrophic personal injuries, have endured pain and suffering, have incurred medical expenses and will incur medical expenses in the future, all in excess of the jurisdictional limits of this court," the complaint said.

The complaint said that "the acts of Plummer and Coal Transport Inc. have been with oppression, fraud or malice, or their negligence is gross, entitling Hylton and Stratton to punitive damages."

The complaint is asking for judgement against Plummer and Coal Transport Inc., jointly and severally for personal injuries; pain and suffering and medical expenses, both past, present and future as well as punitive damages, a trial by jury; for their attorney fees and costs and for any and all other relief to which they may appear entitled, either at law or in equity.

Editor's note: A lawsuit presents only a plaintiff's cause for action.

5 Facebook privacy settings you need to check now

by Kim Komando

Kim Komando hosts the nation's largest talk radio show about consumer electronics, computers and the Internet.

Facebook is a fabulous way to connect with friends and family. Of course, Facebook is also a spectacular way to embarrass yourself. And it happens almost every day.

Users post personal photos and intimate status updates that they think only a few friends will see. Then the posts get broadcast to friends of friends or - worse - everyone.

Anyone can be surprised by an episode of oversharing if they're not paying attention - even Randi Zuckerberg, a former Facebook executive and sister of CEO Mark Zuckerberg.

Last month, she posted a family photo intended for friends, but didn't choose the right privacy setting. A friend of another Zuckerberg sister grabbed it and posted it on Twitter.

Fortunately, Facebook has a new tool to help simplify your privacy settings. In the hustle and bustle of the holidays, you probably also missed it. That's OK; it's easy to find.

When you're logged into Facebook, you'll notice a new lock icon in the top tool bar. Clicking on that brings up the new Privacy Shortcuts menu, where you can manage the Big Three privacy concerns: Who can see my stuff? Who can contact me? How do I stop someone from bothering me?

Without dropping what you're doing and navigating somewhere else, you can quickly block (unfriend) someone, verify that only friends are seeing your posts, filter how you receive messages and control who can send you friend requests.

This dropdown menu also provides a shortcut to your Activity Log, where you can review your past activity. And you can use the new Request and Removal tool to ask friends to take down pictures of you.

The Privacy Shortcuts area is an improvement, but there are other important settings buried away that still need attention. To access these, click on See More Settings in the Privacy Shortcuts menu. (This is the same as clicking on the gear icon next to it and choosing Privacy Settings.)

Under Privacy, check the answer to the all-important "Who can look me up?" You probably don't want that set to Everyone! I recommend Friends at least.

You probably don't want search engines finding your Facebook profile, either. I'd make sure that option is turned off.

If you regularly log in to websites with your Facebook account, you might be surprised by how many apps have access to your profile. Some apps may also have permission to make posts on your behalf. Modify these settings or remove apps you no longer use by going to Apps>>Apps You Use.

The "Apps others use" and "Instant personalization" subheadings also need attention.

You likely allow most of your friends to see your birthday, hometown and other personal data. "Apps other use" controls whether apps that your friends use can also grab that information. I recommend that you uncheck all the boxes.

"Instant personalization" allows information you've made public on Facebook to be used by

'The Big Shake'

PRESTONSBURG — From December 1811 through May 1812, the greatest series of earthquakes in United States history took place. But they didn't happen in California, they happened in the Ohio Valley, with 15 states affected, including Kentucky.

Pikeville women's team falls to Cumberland

PIKEVILLE – The University of Pikeville women's basketball team lost a tough one Saturday afternoon at the East Kentucky Expo Center, falling 72-58 to No. 7 Cumberland University.

The Bulldogs, 16-1 overall and 7-1 in the Mid-South Conference, did most of their damage off the glass, outrebounding the Bears 46-25. The key figure in this statistical advantage was junior guard TaCouya Allen, who hustled for 10 rebounds on top of 19 points to pace the Bulldogs.

Senior forward Jessica Pace did well clearing out space underneath the basket, and was able to put up 17 points as well as pull down six rebounds. Junior guard Cassie Cowan came off the bench to provide an offensive spark to the Bulldogs with 16 points.

Sophomore guard Christin Haney managed to lead the Bears in scoring despite coming off the bench. Haney finished with 10 points and three assists.

Sophomore forward Peyton Wright, junior forward Brogan Conley and sophomore forward Whitney Jackson each added eight for the Bears (5-10, 1-5 in the Mid-South Conference, who rotated often enough that nine players received 10 or more minutes.

Conley is a Johnson Central High School graduate.

The Bears' next matchup will be Thursday evening at 6 p.m. when they welcome St. Catharine College to the Expo Center.

LC senior signs with Shawnee State

PORTSMOUTH, Ohio – Shawnee State University Softball announced its second signing in the Class of 2017 as Kristen Caudill has recently signed her letter of intent to continue her playing career with the Bears.

Caudill is currently a senior at Lawrence County High School in Louisa.

"I chose Shawnee State because of the beautiful campus and great softball program," explained Caudill. "I think I was meant to be a Bear and I can't wait until next fall."

Playing in the outfield, Caudill has lettered in each season. This coming spring will mark the second straight year that Caudill will have served as team captain. As a junior, she was named to the All-District team after batting .321. She also drove in 38 runs while scoring 18 more. Twenty of her 37 hits were extra-base hits, including 18 doubles. As a sophomore, Caudill hit .419 with 44 RBI, 21 runs, 14 doubles, four triples and four home runs. She finished with a .667 slugging percentage.

She was also awarded the team's Hustle and Leadership Awards during her playing career at Lawrence County High School. During her freshman season, she was part of a team that won the Regional Championship and advanced to the state tournament. In addition to her accomplishments on the field, Caudill was named Academic All-State and is a member of the Honors Choir.

Caudill becomes the second player to sign with softball for the 2014 season. She joins Tara Duncan in the Class of 2017. Shawnee State went 29-10 last season, including a 16-6 mark in the Mid-South Conference. The Bears are coached by SSU Hall of Famer Ralph Cole, who enters his 22rd season as head coach in 2013. He was named Mid-South Co-Coach of the Year last season, his ninth time earning Coach of the Year honors during his career.
